CONTENTS

Tectonophysics Volume 190

Special issue: The Geology, Geophysics and Metallogeny of the Present-Day Oceans (edited by J. Francheteau, O. Eldholm and P. Miles)

Preface VII

An example of a recent accretion on the Mid-Atlantic Ridge: the Snake Pit neovolcanic ridge (MARK area, 23°22′N)
Gente, P. (Brest, France), Mével, C. (Paris, France), Auzende, J.M. (Plouzané, France), Karson, J.A. (Durham, N.C., U.S.A.) and Fouquet, Y. (Plouzané, France) 1

Emplacement of deep crustal and mantle rocks on the west median valley wall of the MARK area (MAR, 23°N)
Mével, C. (Paris, France), Cannat, M., Gente, P. (Brest, France), Marion, E. (Paris, France), Auzende, J.M. (Plouzané, France) and Karson, J.A. (Durham, N.C., U.S.A.) 31

In-situ study of the eastern ridge–transform intersection of the Vema Fracture Zone
Mamaloukas-Frangoulis, V. (Brest, France), Auzende, J.-M., Bideau, D. (Plouzané, France), Bonatti, E. (Palisades, N.Y., U.S.A.), Cannat, M. (Brest, France), Honnorez, J. (Strasbourg, France), Lagabrielle, Y. (Valbonne, France), Malavieille, J. (Montpellier, France), Mével, C. (Paris, France) and Needham, H.D. (Plouzané, France) 55

Stretching of the deep crust at the slow-spreading Southwest Indian Ridge.
Cannat, M. (Brest, France), Mével, C. (Paris, France) and Stakes, D. (Columbia, S.C., U.S.A.) 73

Spinifex basalts with komatiite–tholeiite trend from the Nansen-Gakkel Ridge (Arctic Ocean)
Mühe, R.K., Bohrmann, H., Hörmann, P.K., Thiede, J. and Stoffers, P. (Kiel, F.R.G.) 95

Evidence for episodic hydrothermal activity in the Red Sea from the composition and formation of hydrothermal sediments, Thetis Deep
Scholten, J.C., Stoffers, P. (Kiel, F.R.G.), Walter, P. (Heidelberg, F.R.G.) and Plüger, W. (Aachen, F.R.G.) 109

The opening processes in the deep Tyrrhenian basins of Marsili and Vavilov, as deduced from magnetic and chronological evidence of their igneous crust
Savelli, C. (Bologna, Italy) and Schreider, A.A. (Moscow, U.S.S.R.) 119

An analysis of the altimetric geoid in various wavebands in the central Pacific Ocean: constraints on the origin of intraplate features
Maia, M. and Diament, M. (Orsay, France) 133

Research Papers

Magnetic mapping of the western Alps: compilation and geological implications
Mouge, P. and Galdeano, A. (Paris, France) 155

Mantle fragments in the Scandinavian Caledonides
Bucher-Nurminen, K. (Oslo, Norway) 173

Kinematics of crenulation cleavage development: example from the Upper Devonian rocks from northeast of the Bohemian Massif, Czechoslovakia
Rajlich, P. (Prague, Czechoslovakia) 193

Kinematics of compressional fold development in convergent wrench terranes
Jamison, W.R. (Tulsa, Okla., U.S.A.) 209

Strain in Archean greenstone belt of Minnesota
Schultz-Ela, D.D. and Hudleston, P.J. (Minneapolis, Minn., U.S.A.) 233

Strain analysis using quartz deformation bands
Wu, S. (Morgantown, W. Va., U.S.A.) and Groshong, R.H., Jr. (Tuscaloosa, Ala., U.S.A.) 269

Mapping elastic lithospheric thickness variations in Canada
Pilkington, M. (Ottawa, Ont., Canada) 283

On the effective thermal and hydraulic conductivity of binary heterogeneous sediments
Bachu, St. (Edmonton, Alta., Canada) 299

Influence of pre- or post-diapiric deformation on the foliation and strain pattern of a diapiric ridge
Van Berkel, J.T. (Amsterdam, The Netherlands) 315

Plio-Quaternary geodynamic evolution of a segment of the Peruvian Andean Cordillera located above the change in the subduction geometry: the Cuczo region
Cabrera, J. (Orsay, France and Lima, Peru), Sébrier, M. and Mercier, J.L. (Orsay, France) 331

Basic magmatism and geotectonic evolution of the Pan African belt in central Africa: evidence from the Katangan and West Congolian segments
Kampunzu, A.B., Kapenda, D. (Marseille, France) and Manteka, B. (Lumbumbashi, Zaire) 363

Biotite percussion figures in naturally deformed mylonites
Xu, S. (Hefei, Anhui, P.R. of China) and Ji, S. (Nanjing, Jiangsu, P.R. of China) 373

Short Communication
Geomagnetic field reconnaissance in Kuwait
Bou-Rabee, F.A. (Kuwait City, Kuwait) and Niazi, M. (Berkeley, Calif., U.S.A.) 381

Subject Index Volumes 181–190 391
